OXFORD MAN APPOINTED F. H. A. COMMITTEEMAN

Carl E. Milligan of Oxford has been newly appointed as a committeeman for the South Paris Farmers Home Administration office according to Elwyn R. Morrow, County Supervisor. Mr. Milligan will review and act on all Farmers Home Administration loan applications along with the other County Committeemen. Alvin Brown of Waterford, and Ronald Emery of Paris. The term of office is for a three-year period of time and Mr. Milligan replaces Philip Lovejoy of South Paris on this committee.

Mr. Milligan is a dairy farmer who operates a 50-cow dairy farm in Oxford near Lake Thompson. Mr. and Mrs. Milligan operate this farm with their son and a hired man. They also have three daughters who grew up on the farm and come back to help with seasonal work.

The Milligan family previously had a 20-cow dairy farm in Rumford and they purchased the Oxford farm in 1958 under the Farmers Home Administration program. Since then they have progressed so well that they have paid their FHA indebtedness in full and have changed to other lines of financing.

FOOD FOR THOUGHT

"The truth is that for everything that can be accomplished by showing a person when he's wrong, ten times as much can be accomplished by showing him where he is right. The reason we don't do it so often is that it's more fun to throw a rock through a window than to put in a pane of glass." — Robert T. Allen

COMMENTS FROM THE OFFICE EARLY HUNTING SEASON

Don't look now, but the deer hunting season is just a few months away and the Maine Fish and Game Department, has an early outlook was struck by lightning and the overturned bathhouses at Songo Pond, damage was confined to some trees across the roads and a section of the Skillings Road being washed. A road in Mason township was repaired for the County by the Bethel Highway Dept.

The funds for road construction under the T. R. I. program have been reduced as a result of the reapportionment by the last legislature. This is offset by increased aid from the State for Winter Roads and the construction of State Aid roads. On the whole we will realize more for road programs than in the past.

Although the reduction in T. R. I. funds will curtail our road building on unimproved roads, the overall result for Bethel should be of particular value as our road building program has been very well maintained over the years. If the increased funds continue for Winter maintenance they will be of great assistance because of the high cost of snow removal in this area of the state.

ONE DIES, FOUR INJURED IN HEAD-ON CRASH AT UPTON SUNDAY

An Ontario woman was killed Sunday morning and four others were injured in a two-car collision on Route 26, one and a half miles south of Upton.

Pronounced dead at the scene by Dr. Harry Brinkman, Franklin County medical examiner, was Mrs. Lorraine Gowen, 36, of Ottawa, Ont. Dr. Brinkman said that an autopsy would be scheduled at the Rumford hospital to determine the cause of death.

Mrs. Gowen reportedly was a passenger in a 1970 four-door sedan operated by her husband, Robert Gowen, 40, who received left leg and right knee injuries. Also in the Gowen car was Roberta Gowen, 18, who received injuries to her right foot and left shoulder and Robert Gowen, Jr., 16, who suffered a fractured left wrist and facial cuts. All three were taken by ambulance to the Rumford hospital, where they were treated and released.

The driver of the second vehicle, a 1970 two-door compact, was Theodore E. Banks, 23, a student at the U. of M., Orono, and a resident of New York City. He was also treated for minor injuries and released.

According to officials, Gowen was headed northerly on Route 26, and Banks southerly when they collided head-on.

At the scene of the 10:20 accident were investigating State Trooper Gerald J. Smith, West Bethel; State Trooper James Nolan, Rumford; State Police Sergeant Deane Clukey, Norway, and Assistant County Attorney Michael O'Donnell, Bethel.

Paddling a boat among the weeds and lily pads brings interesting happenings and quiet relaxation.

I put my camera and fishing tackle into "Nymph" two afternoons this week and set out to fish and to just explore.

I poked along, casting now and then and looking at my surroundings.

The picked weeds at this time are so blue with closely spaced flowers.

Along the shores are the lovely delicate arrow heads.

In the distance there appeared an island of single wild roses, some of which were in bloom. Among them grew the lily pads and it is all things to be here in "the middle of the ocean" a bunch of milk weed. I could scarcely believe it. They seemed to peep shyly out as if ready to beat a hasty retreat should I approach too closely.

As I sat there in the breeze and sunshine looking over the expanse of blue, I waited for something to happen. It did! As I made a cast with my fish pole the cushion on which I sat shot backward from under me and I found myself flat on my back in the bottom of the boat. I was cast, oars dangling, line out, and struggling to regain an upright position!

High overhead a hawk checked to see what was going on.

Red wing whistled, "Conkaree-ee."

Then I laughed as I pictured myself as others might see me.

Swallows dipped and glided. Were they laughing too?

But it was just too much when the bullfrog called, "Rum-rum! Jug-a-rum? Jug-a-rum! I answered, "Rum-rum!"

Righting myself I rolled in my line after some struggle of retrieval from among the lily pads.

A plane a little late to view "the scene" cut the stillness as its wings whispered through the sky making marks against the low clouds as it passed out of range overhead.

I rowed against the waves to the mouth of the Saranac then just drifted and fished as the wind moved me up stream.

At a turn I had to take the oars for the wind no longer hit the waters.

Two kingfishers flew close overhead with their loud high rattles. Hovering on rapidly beating wings I wondered if they were about to plunge as me as they do for fish. Their ragged crests looked as if they had already plunged where there.

I turned back while directly overhead it seemed the July sun blazed down. The skyline with its foreground of greens shimmered with me in the heat.

The bleached remains of a log was decorated with three turtles and on the far end a dragon fly, settling ready to plunge as I passed.

The woods and shore relaxed into a daze as I once again entered the pond.

The wind turned me to the right and there stood the blue heron, neck arched to the shallow water and took no notice of me. This strange.

NEWRY EXTENSION LADIES

ENJOY ANNUAL TOUR

The ladies of the Newry Extension Group took their annual outing trip Wednesday, July 21.

They first went to South Paris and enjoyed the gracious hospitality of Bernard McLaughlin in his most beautiful garden being taught regarding many lovely, interesting plants, and trees.

Following an enjoyable instructive time there, they partook of a sumptuous picnic dinner on the shores of Norway Lake. It was a beautiful day and the scenery perfect.

In the afternoon they met Forrest Stowell, who conducted them on a tour of many interesting places on Paris Hill. They had the opportunity of visiting the old Baptist Church, both in the sanctuary and the classrooms in the basement, which the members have restored to a remarkably delightful condition.

Through Forrest's courtesy and kindness they visited the interior of the Old Academy, the first floor of which is nicely restored and used as Community Rooms; the second

floor is now in the process of restoration with an excellent beginning showing.

They were greatly privileged to visit the home of Miss Gertrude Brinckle, who now lives in what was once Paris Court House. She welcomed them ever so cordially, showed where the County offices of Treasurer and Clerk once were. Then through the long hall lined with old pictures, furniture and artifacts of the 1800's to the winged stair case which leads two ways to the Court Room, where she has an exhibit of many interesting old things, which every one enjoyed seeing and hearing her tell of their history in her sweet interesting way. Dear Editor,
I would appreciate it very much if you would print this in your local paper. I realize there has been quite a bit of cheap and degrading things going on in Bethel, which is supposed to be a very quiet and respected little town. However what I found at my lot in M. Will Cemetery made me very sad and depressed to think anyone would be so low as to use a cemetery for a beer parlor, leaving their beer bottles and emptying them from a dead person's grave. It could be grievance or just plain no respect or whatever you wish to call it.

But I do hope whoever did this has conscience enough to realize what they have done and bear in mind that they may have a dear one gone and how they would feel if some one did the same to them. I hate to think we have anyone in this town that would do a thing like that but it was done over the week end by some one.

Respectfully,

Will Cemetery made me very sad and depressed to think anyone would be so low as to use a cemetery for a beer parlor, leaving their beer bottles and emptying them from a dead person's grave. It could be grievance or just plain no respect or whatever you wish to call it.

But I do hope whoever did this has conscience enough to realize what they have done and bear in mind that they may have a dear one gone and how they would feel if some one did the same to them. I hate to think we have anyone in this town that would do a thing like that but it was done over the week end by some one.

Respectfully,
Beulah Bean

TEACHER PROFILE

Charles Johnson III

A late addition to the Crescent Park School faculty during the 1970-71 year was Charles Johnson III, who began his duties last October. He had replaced Mrs. Elmina Doyen, who was filling a sixth grade position left vacant by a last minute resignation.

Mr. Johnson is a native of Schenectady, N. Y. He attended Lafayette College in Easton, Pa., from where he graduated in June 1970 with an A. B. degree in History.

During the summer of 1970, Mr. Johnson decided to go into the teaching field. He enrolled in the Alternative Teacher Training Program sponsored by the Educational Development Center in Bethel, Maine. It was through the E.D.C. that Mr. Johnson came to Bethel.

His classroom goals are two-fold: 1) to provide students with the basic knowledge which will help them continue to learn all through life, and 2) to help them to understand themselves. He also feels that it is important for a teacher to be as human as possible and let students know that it is all right for them to be human, too.

During the summer vacation, Mr. Johnson planned to attend the Co-servation School at Bryant Pond. For relaxation, Mr. Johnson enjoys mountain climbing, skiing, swimming, and fishing.

UPTON

— Mrs. Arline Bernier, Corvallis. —

A bad accident occurred in Upton Sunday when two cars were totaled. Five people injured and one fatality. It is believed by some who were near the scene that high speeds were a factor. Certainly the excess speeds as many practice through this area has been a head-shaking topic and the Community Club tried to curb this a few years ago, but were unsuccessful. Although the Canadians are by no means the only offenders, they comprise the largest percentage of the traffic and perhaps if some pictures and descriptions of an accident like this one were printed up and passed out at the Customs, it might be of some help.

The Ladies' Aid have set Aug. 21 as their date for a mini-fair. As our internal troubles have been resolved, we are hoping to build up our membership and get some constructive work done.

Kathleen Bernier has gone to Circle L camp, East Livermore, for a week. David Korhonen of Newry and Tammy Abbott of East Sumner are also at camp for a week.

Folks have been picking some blueberries but they are not ripe enough yet to be good picking. Some raspberries are ripening but the heavy storms last winter damaged the canes and the resultant crop. The new canes are coming in thickly and it is hoped the winter will treat them more gently.

An eagle has been seen frequently in the area—it is being termed a bald eagle. Coy dogs and pups are also reported frequently. Some are around the gravel pit area in Gratton.

Marilyn Hebert went home Sunday night as her day off came on Monday. She returned to her job Monday night.

When the telephone rang this morning, I thought of Fred as he is usually the one who calls so early. This time it was not serious, only a fellow who had had a flat tire in the wee small hours and had parked in front of Fred's barn as he didn't have a jack and they wanted the loan of a bumper jack. A heavy downpour arrived midway through the job and helped speed it up, even though I quit my part which

was the heavy looking-on and took refuge in the truck.

WHAT YOU SHOULD DO IN HOT WEATHER?

Summer heat can have a telling effect on your body and it is important to take normal precautions to reduce this effect. You must realize that you burn up just as much energy in heat as in cold, so you should keep up a normal diet. Dressing properly can help. Remember that even a single layer of clothing helps protect you against heat reflections as well as from the direct rays of the sun.

You lose fluid in the heat and so you should drink plenty of water to avoid dehydration when you are perspiring heavily. When it is really hot, guard against heat and sun-stroke by avoiding exhausting work or exercise—even in the shade. Finally, remember that we carry many products for making hot summer living more comfortable.

Due to the increased number of prescriptions and in order to keep up good service, it would be to our mutual advantage, if you would please phone in re-fill prescriptions. — Thank you.
